

// 7 DOLLAR TAXI

<http://www.myspace.com/7dollartaxi>

<http://www.7dollartaxi.com>

The band's debut album 'Come And Figure It Out' was released in Switzerland in 2006 (Bandorama.ch Rec./K-Tel) and is going to be released in Japan in March 2008 (Kurofune Rec.).

Indie-rock band 7 Dollar Taxi will give you a blast of 60s beat music clashing with 80s post-punk, all freshly and colourfully wrapped up in a British manner and with a garage attitude that makes established bands look like greenhorns. You'll find the full range from pounding Rock-tracks with howling guitars to terrific indie-anthems that make your legs quirk...

Gig highlights

Sidecar, Barcelona ESP

Bang Bang Club, Berlin GER

Bei Chez Heinz, Hanover GER

Dirty South, Lewisham UK

Abart, Zürich CH

Kofmehl, Solothurn CH

Grabenhalle, St. Gallen CH

Schüür, Luzern CH

A few press reviews

"Some might say it's a slur to say this harmony-drenched Swiss lot sound like the Wannadies. I wouldn't, and those people are dicks. The Wannadies were great. As are 7 Dollar Taxi." (*NME*)

"Swiss people make great watches and delicious pudding, but can they pull off rock music? 7 Dollar Taxi proves that they can. Clad in outfits that would make Harry Potter wet, this foursome uses simple melodies to write instantly catchy tunes. With styles that recall European bands like The Beatles and Franz Ferdinand, these guys may be America's next foreign favorite." (*freeindie.com*)

"7 Dollar Taxi's music is diverse in mood and instrumentation and it's appealing worldwide. Somehow they manage to transform their songs into addictive indie anthems that have caught the attention of radio personalities and journalists from all over the world..." (*Tiffany Dimmack, radio presenter, Brisbane*)
